HUNTINGDONSHIRE DISTRICT COUNCIL

24/02417/LBC

OFFICER REPORT

Case No: **24/02417/LBC** **Listed Building Consent**

Proposal: **Full lime mortar repoint and brick restoration to rear of property**

Location: **1 Eaton Ford Green Eaton Ford St Neots**

Applicant: **Mr Mark Taylor**

Grid Ref: **517615 260013**

DESCRIPTION OF SITE AND APPLICATION

The property is two storey detached dwelling constructed of red brick and finished in white render to the front, with a tiled roof and dormer windows to the attic. It is a Grade II Listed Building, dating from the late 17th/early 18th Century and is located within the Eaton Ford Conservation Area. It also stands within the settings of nearby Listed Buildings, 2 Eaton Ford Green and Quaintways, Eaton Ford Green.

Officers have scrutinised the plans and have familiarised themselves with the site and surrounding area.

The application is for full lime mortar repoint and brick restoration to rear of property.

NATIONAL GUIDANCE

The National Planning Policy Framework (December 2024) (NPPF 2024) sets out the three objectives - economic, social and environmental - of the planning system to contribute to the achievement of sustainable development. The NPPF 2024 at paragraph 10 provides as follows: 'So that sustainable development is pursued in a positive way, at the heart of the Framework is a presumption in favour of sustainable development (paragraph 11).'

The NPPF 2024 sets out the Government's planning policies for (amongst other things):
* delivering a sufficient supply of homes;
* building a strong, competitive economy;
* achieving well-designed places;
* conserving and enhancing the natural, built and historic environment.

Planning Practice Guidance and the National Design Guide 2021 are also relevant and material considerations.

Planning (Listed Buildings and Conservation Areas) Act 1990

PLANNING HISTORY

0202456FUL - Extension to dwelling and erection of hovel/outbuilding – permission granted 25.11.2002
0202460LBC - Extension to dwelling and demolition of existing garage – consent granted 25.11.2002
0213135PDE - Erection of garden shed (Listed Building Consent) – consent not required 03.12.2002

CONSULTATIONS

St Neots Town Council recommends approval. It is considered that the proposal improves the property.

HDC Conservation Team recommends approval. It is considered that the proposal will not harm the listed building or the character of the Conservation Area.

REPRESENTATIONS

No objections received at time of determination.

SUMMARY OF ISSUES

The main issues to consider in the determination of this application are:
o Impact on Heritage Assets

* Impact on Heritage Assets

Policy LP12 of the Huntingdonshire Local Plan to 2036 state that developments should respond positively to their context, draw inspiration from the key characteristics of its surroundings and contribute positively to the area's character and identity.

Policy LP34 states that a proposal within, affecting the setting of, or affecting views into or out of, a conservation area should preserve, and wherever possible enhance, features that contribute positively to the area’s character, appearance and setting as set out in character statements or other applicable documents.

The Council will consider the significance of a designated heritage asset and where there is less than substantial harm, this will be weighed against the public benefits of the proposal. Where there is deemed to be substantial harm, then the proposal would need to achieve substantial public benefits to outweigh that harm.

Section 16(2) of the Planning (LBCA) Act 1990 (as amended) requires special regard to be had to the desirability of preserving the building or its setting or any features of special architectural or historic interest which it possesses.

Section 66 of the Planning (LBCA) Act 1990 states that in considering whether to grant planning permission for development which affects a listed building or its setting, the local planning authority shall have special regard to the desirability of preserving the building or its setting or any features of special architectural or historic interest which it possesses.

Section 72 of the Planning (LBCA) Act 1990 (as amended) states that special attention shall be paid to the desirability of preserving or enhancing the character or appearance of a conservation area.

Para. 212 of the NPPF set out that 'When considering the impact of a proposed development on the significance of a designated heritage asset, great weight should be given to the asset's conservation (and the more important the asset, the greater the weight should be). This is irrespective of whether any potential harm amounts to substantial harm, total loss or less than substantial harm to its significance'. Para. 213 states that 'Any harm to, or loss of, the significance of a designated heritage asset (from its alteration or destruction, or from development within its setting), should require clear and convincing justification…'.

Local Plan policy LP34 aligns with the statutory provisions and NPPF advice.

The application is for full lime mortar repoint and brick restoration to rear of property. The Conservation Team has been consulted on the proposals. It is noted that the works to the brickwork have already been undertaken without the benefit of listed building consent. The applicant states that the works entailed the removal of cementitious mortar and its replacement with a more appropriate lime-based mortar. Cement for repointing the joints of old (pre-c1919) walls can disfigure and hasten their decay. Whereas permeable lime mortars widely used for older walls allows them to 'breathe'. Photos show that replacement lime mortar is of suitable colour and profile to the existing listed building. These works are considered to have a neutral impact on the significance of the listed building.

It is noted that concrete window sills have been replaced with brick sills; these works are not considered to be harmful to the listed building.

Officers have had special regard to the desirability of preserving the listed building or its setting or any features of special architectural or historic interest which it possesses. Officers have given special attention to the desirability of preserving or enhancing the character or appearance of the Conservation Area. It is considered that harm will not be caused to either of these designated heritage assets because the works will have a neutral impact on the significance of the conservation area and causes no harm to the significance of the listed building. It is noted that the proposal maintains the character of the listed building and preserves the positive contribution the building makes to the character and appearance of the Conservation Area.

The proposal, therefore, accords with ss. 16, 66 & 72 of the Planning (LBCA) Act 1990, paragraphs 202-221 of the NPPF (2024), Policies LP12 and LP34 of Huntingdonshire's Local Plan to 2036 (2019) and Policies A3 and SS2 of the St Neots Neighbourhood Plan 2014-2029 (2016) in this regard.

*Conclusion
The proposed works are considered to be compliant with the relevant national and local policy as they:

* Would not have a harmful impact upon the designated heritage asset;

Taking national and local planning policies into account, and having regard for all relevant material considerations, it is recommended that listed building consent be granted, subject to the imposition of appropriate conditions.
