Subject: Planning ref 26/02001/HHFUL
Date: 14 November 2026 15:56:11

Dear Sir/Madam

Thank you for your letter dated November 10th 2026. We have looked at the documents submitted regarding the proposed extension of 10 Saviles Close.

We have severe concerns regarding the impact of privacy to our property especially considering how the first floor development will overlook our rear garden and into our kitchen, patio and conservatory. We therefore object to the current proposals.

The extension proposes significantly increasing the number of first floor windows which overlook our garden whilst also bringing the first floor development nearer to our property by 6.3m. From the plans it suggests that all the proposed windows at the front of number 10 are clear glass and not frosted which is not acceptable to us.

Additionally it should be noted that the outline drawing of our property as shown is not accurate as it indicates a patio section as connected to our house which is not the case. Since there are no walls at the side of our patio the inside of our conservatory is directly and clearly visible from the first floor of 10 Saviles Close.

We are therefore very concerned that our privacy will be negatively impacted and we are also mindful of the fact that our visibility into their property will also be increased .

Please can you confirm receipt of this mail . Should you need to contact us again regarding this planning application please feel free to use this mail address.

Yours faithfully
