Comments Details

Commenter Type:	Third Party
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	Objections to Planning Application 25/00491/HHFUL (19 West End Brampton) Objection 1. We object to the proposed Front dormer windows as shown in Drawing WEB/004. We consider that these windows will compromise our privacy in our garden conservatory, which is not shown on the site maps WEB/002/3 in the application. This conservatory having been in place when the property was [redacted] and had been in place for many years prior to that. The planning measurements and angles shown in drawing WEB/003 in relationship to the proposed front dormer and our conservatory are incorrect. Objection 2. We also object to the proposed square window in the apex of Side East facing eave as shown in Drawing WEB/004. This window will overlook directly into our conservatory and most of the garden of our property, presenting a compromise to the privacy of our garden

and its private social areas.
Our 18th century cottage is sited adjacent to the West End highway and is at right angles to the road and other houses in the immediate vicinity. Number 19 is set right back in relation to our property. If the front aspects of both properties happened to be aligned, then with regards to any Dormer windows at the front of Number 19, there would be no need for Objection 1 to be raised by us.
