Dear Olivia,

25/80046/COND – 10a Pinfold Lane, Godmanchester

Thank you for your consultation in regards to the above referenced planning application.

We are in receipt of an approved Written Scheme of Information (WSI) which has been attached to the application, outline a scheme of monitoring and recording works.

As the archaeological works are to be undertaken in conjunction with development we would advise that parts a – c, including the pre-commencement element of the condition, can be discharged. As such we would have no objection to the commencement of development, however would note that this should only be undertaken within the bounds of the approved WSI e.g. under archaeological monitoring. We would advise that part D of the condition is retained to cover post-excavation works such as reporting and archiving.

Kind Regards

Lewis
