Good afternoon ,
Thank you for the reply.
I know nothing of a tree application.
The application I read is for the removal of a boundary hedge,
You have just sent me a letter saying the same neighbour has applied for an extension and you feel it might impact my privacy this proposal is some 70+ yards from my property.
Yet when this 9 foot high hedge only 35 feet away is removed it will take away all my privacy allowing my bedroom windows to be viewed and nothing is done about this privacy. No body bothered to come and look at what would happen with the removal of the hedge and my privacy.
Yes I would like my comments added
They are , i feel the hedge should be replaced with a wooden 6 foot high fence like the one that is already on part of the boundary .
I am not objecting to the removal of the fence , just want the privacy I have had for over 50 yrs maintained by a repaclement wooden fence and not have to wait years for another hedge to grow.
Many thanks,

[redacted] Planning application no 24/02209/TRCA RequestDetails : Re the above planning application 1. Why was I not informed of this. Only just found out today 07/03/25.

2. Part of the application is to remove the boundary hedge. This will leave me with no privacy whatsoever. Especially as a replacement will take ages to grow and give me back my privacy.

The boundary between the 2 properties already has a 6 foot high fence half way along the boundary, so it would make logical sense to continue this fence along to the building that adjoins my property be an instant replacement,and keep my privacy ,which appears no one has bothered to consult me on.

I could not find any way to object on the application so have done so this way.

Please advise why my interest was not being considered in this application.
