Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	I am writing to formally object to the application for the proposed residential property development. My objection is based on the environmental impact of the project, particularly in relation to the planned removal of trees and hedgerows in an area that should be preserved for conservation. The destruction of natural habitat for the sake of new development is deeply concerning. The area in question plays an important role in supporting local wildlife, contributing to biodiversity, and maintaining ecological balance. Removing trees and hedges will not only harm the environment but also diminish the character and visual appeal of the area.

Kind regards
