Hi Kev,

Yes, they will need monitoring as suggested in the in the AIA report to discharge the condition. I'm sure it was in there and so the Condition can be discharged.

Subject: FW: 25/80150/COND – Rheola - query on C5

Hi Neil

Thanks for passing this on, much appreciated

Just a query in that the condition application also includes C5 (Schedule of Tree Monitoring). I've a feeling that this might have been amended after the application was registered and a new consult sent over on the 22.05.25. Details of this appear to be in the submitted AIA but just wanted to check that you are happy that C5 can also be discharged?

Thanks Kev

Kevin Simpson
