1. Condition
   All works shall be carried out so as to conform to British Standard 3998: 2010 Tree work - Recommendations.

   Reason: In the interest of the future well-being of the tree(s) on which work is being carried out in accordance with Policy LP31 of the Huntingdonshire Local Plan to 2036

2. Condition
   Time limit: The works authorised by this consent shall be completed before the expiration of 2 years from the date of this permission.

   Reason: To define the time period in which the approved works are permitted to be undertaken.

3. Condition
   Scope: The works, as detailed in the application, qualified by these conditions, and authorised by this consent:
   (a) may not be carried out more than once, unless authorised by a further grant of consent;
   (b) shall be completed in their entirety.

   Reason: To define the scope in which the authorised works are permitted to be undertaken.

4. Reason
   Reason for Refusal: No sound arboricultural justification has been provided for the proposed 2m reductions to G1 Beech or the 1.2m reductions to G2 Yew. Crown reductions would reduce the amenity value of the trees, create ingress points for airborne pathogens and result in weakly attached reaction growth which will be more prone to failure.

4. **Trees and Wildlife**: Trees are hosts to nesting birds, many of which are protected by law. Investigations should be carried out for signs of bats (all of which are protected by law) and nesting birds and advice sought from appropriate agencies such as Natural England, the Bat Conservation Trust (BCT) or the Royal Society for the Protection of Birds (RSPB) following any positive sightings. Tree works should be planned carefully to avoid disturbing nesting birds and roosting bats. The disturbance of protected species is an offence and could result in prosecution, a criminal record and a substantial fine.
