HERITAGE STATEMENT

The Thatched Cottage, High St., Bury, PE26 2NQ

The property is a thatched timber framed two storey plus attics dwelling. There is a brick built central chimney stack that extends approximately 1 metre above the level of the ridge. The addition of two 900 centimetre buff coloured chimney pots and cowls, set within the stack will complement the existing buff coloured brickwork. The stack itself will remain unaltered.

Views from the road and surrounding areas will not be adversely affected. The pots will blend in well with the brickwork and thatch. The fitting of these pots is entirely within keeping of other, local, listed building properties which are fitted with similar pots and cowls.
