Dear Sirs,

I wish to comment on the planning application for a shed in the grounds of Glatton Hall Glatton you may be aware the shed has already been constructed.

1. I note from the application, the applicant stated he had spoken to neighbours. [redacted] Stags Holt Lodge, which is the closest neighbour to the structure. [redacted]. I have not been spoken to regarding the erection of the shed [redacted]. I will mention a month or so ago whilst I was tidying the garden, [redacted] popped [redacted] head over the boundary wall. [redacted] mentioned about the shed [redacted] was erecting, which has since been completed.
2. I note the applicant stated the shed is not visible from Stags Holt Lodge, in fact it is very much visible from 2 bedroom window, ensuite window and a dressing room window.
3. It is unclear what the use of this very elaborate shed will be. It would appear to be more than just a storage shed. I am concerned the shed has been placed in an attractive wooded conservation area.
4. I would just mention the owner of Stags Holt Lodge, [redacted], has a lease over a portion of the land within the curtilage of Glatton Hall. This piece of land holds a very large Calor Gas tank, which has pedestrian access for servicing and filling of the tank via the Southern boundary on Glatton Ways. The proximity of the tank is fairly close to the new shed.
5. I note part of the application is to replace the Southern boundary along Glatton Ways with a very smart metal fence, which I fully support. This will require a pedestrian gate to allow access for the owner and future owners of Stags Holt Lodge to service the gas tank.
6. I have always thought the entrance gates to Glatton Hall were rather industrial looking so I am pleased to see the applicant is wanting to make the entrance a little more grand and in keeping with the ancient building he now occupies.

Regards,
[redacted]
