Dear Sirs

Thank you for advising us of the proposed demolition of a section of the wall which lies within the curtilage of York House, Bluntisham Road, Colne.

Being new to the village there obviously remains a lot we have yet to learn about our immediate vicinity. What we have learnt however, is that this particular wall is a listed wall and is clearly of some local/village importance.

Our primary concern is the impact this proposed entrance would cause to pedestrian traffic along the narrow footpath adjacent to this very busy thoroughfare. This narrow footpath is in constant use with school-children, young mothers with prams and pushchairs as well as many young and elderly pet owners all of whom use this pathway daily.

Should the application be approved can we be assured that the entrance would be adequately splayed to ensure visibility and safety and that any proposed new brickwork would be properly in keeping with the style, quality and type of this much valued, beautiful listed wall?

Yours faithfully
