Objection to Planning Ref:24/02106/HHFUL

Hello Andrea,

In support of our objection to the proposed extension at 9 Blackwood Road, I've attached photos of the rear of our property and some measurements we took. This, we feel, is added evidence of the breach of the 45° line rule on the proposed double storey building planning application. We are sending this as nobody has been in contact with us and the plans submitted to you only show a bird's eye plan of the neighbour's development and not the measurements or elevations that will affect the overshadowing and loss of daylight to our rear habitable rooms. These will be the dining room and rear first floor bedroom (which we have raised in our objection) . Our upstairs bedroom will be overshadowed by a 6 metres length of double storey wall from our window to the end of their proposed development with a width of under 2 metres from the side of our house. Please add his information to our objection.

Yours Sincerely

Jerry & Vanessa Hartley

7 Blackwood Road
