Dear Robyn,

25/80017/COND – Church of St Mary Magdalene, Church Road, Warboys

Thank you for your consultation in regards to the above referenced planning application.

We are in receipt of an approved Written Scheme of Information (WSI) for the scheme of archaeological Monitoring and Recording. Please note that the WSI attached to the portal is an earlier, unapproved version. I have attached the approved version of the document.

The proposed scheme of work is for a program of archaeological monitoring and recording, to be undertaken in conjunction with development. We would therefore have no objection to the commencement of development and the partial discharge of parts a – c to allow this. Development should only be undertaken in conjunction with the approved WSI, under archaeological supervision. We would advise that part d of the condition is retained until fieldwork has been completed and we are in receipt of an approved report for the scheme.

Kind Regards

[redacted]
