Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	We have concerns that erecting a tall cage at the front of the property as shown in the plans will cause the property to look industrial and not residential and the stark appearance will be out of character for the rural nature of the area. This had been less of an issue when the caging was due to be softened by leaving the mature trees in front of it in place, and when originally work started on the property these were only partially removed, however they have now been completely destroyed. Because of this, we also now have concerns that other aspect of the plans will not be followed if/when permission is granted.

Kind regards
