Subject: Decision on your recent application for a dropped kerb at St Anselm Place St Neots

Reference: 485646/648131745
Date requested: Thursday 19th September 2024
Location: St Anselm Place St Neots

11 St.Anselm Place
St.Neots
PE19 1AP.

This email is to confirm the approval of your application for a vehicular access over a footway/verge at the above address, following the recent inspection carried out by the Local Highways Officer.

Please note:

1. The construction of the proposed vehicle access over the footway/verge must be to Cambridgeshire County Councils' standard specification which can be found at www.cambridgeshire.gov.uk/droppedkerbs. It is your responsibility to ensure the crossing is constructed in accordance with this specification. Should the crossing not comply, you will be financially responsible for the reinstatement for the footway/verge.

2. It is your responsibility to ensure the relevant planning consent has been granted (if required). All aspects of the planning consent within the highway must be complied with and this dropped kerb approval does not supersede the Local Planning Authority requirements.

3. Please contact the Local Highways Officer at least 7 working days before work commences.

4. You will need to employ a competent contractor able to carry out works on the highway. You or your contractor should then complete the booking a road space application form (https://www.cambridgeshire.gov.uk/residents/travel-roads-and-parking/roads-and-pathways/highway-licences-and-permits) before commencing any work.

If you have any further queries, please do not hesitate to contact us at Customer Services on 0345 045 5212. Our opening hours are 9am to 5pm Monday to Friday. Alternatively, you can visit our website www.cambridgeshire.gov.uk/droppedkerbs/ or email us at highways@cambridgeshire.gov.uk.

Kind regards,

Highways Service,
Cambridgeshire County Council
