T373** hand digging and root pruning to start at closest edge of proposed footpath 8.6m north of stem and then continue for 11m finishing 8.7m east of stem.
See Arboricultural Method Statement for methods - requires supervision by Arboriculturist.

T381* Tree protection fencing must be offset from stem by 6m.

G23 Tree protection fencing must be offset from stems as shown by arrows between stems and the fence.

17m of 3m wide no dig path starting 8.6m south west of T848 and finishing 9m south east. 75mm thickness of cellular confinement system.

Tree protection fencing must be 10m from T354*'s stem, 3.5m from T362*'s stem, 7m from T846*, 8m from T370*'s stem then 9m from T372*'s stem and 7m east of T373**'s stem.
See arrows between stems and barriers for more measurements.

Ground protection and no-dig 3m wide path extending for 36m. Begins 5.5m north of T359* and finishes 8.3m north east of T845's stem. 75mm thickness of cellular confinement system.

10 0 10 20 30 40 50 m

Legend

- Phase 1 site boundary
- Tree protection fencing
- Ground protection suitable for weight of heaviest vehicle, specifications included in Arboricultural Method Statement
- Hand digging and root pruning
- No dig hard surfacing (see Arboricultural Method Statement for methods, requires supervision by Arboriculturist)
- Canopy spread

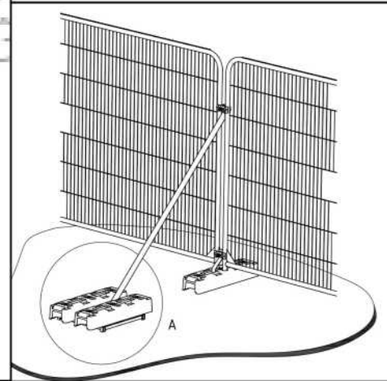
Root Protection Area

- Category U tree (not suitable for retention)
- Category A tree (high quality)
- Category B tree (moderate quality)
- Category C tree (low quality or young)
- Tree to be removed

* = tree protected by TPO

** = tree possibly protected by TPO

Tree Protection Barriers as per BS5837:2012



All tree protection measures must be installed and checked by an Arboriculturist BEFORE any construction activities occur.

The space between the tree protection fencing and trees is a Construction/ Demolition Exclusion Zone where no materials storage, parking or demolition activties can take place.

Tree protection measures MUST NOT be moved from the locations shown on this plan.

WILD FRONTIER ECOLOGY

Former RAF Upwood Phase 1

Tree Protection Plan 3 of 7 (construction stage)

Surveyed: February and March 2019

Drawn by: AL
September 2020
Scale 1:600

Background map is a topographical survey provided by the client showing tree positions.
The original of this drawing was produced in colour - a monochrome copy should not be relied upon.
