Dear Hannah,

25/80071/COND and 18/01918/OUT - Land North West of Spittals Way and Ermine Street, Huntingdon

I am writing by way of update in regards to the archaeological conditions 17 and 18 applied to 18/01918/OUT.

By way of update, we have been in discussions with the applicants archaeological consultants regarding the mitigation portion of the scheme, the fieldwork for which is expected to begin in the coming months.

Due to the age of the previous WSI, attached to 25/80071/COND, we have requested that this is updated to reflect new guidance and data from our Historic Environment Record reference. I have attached the updated WSI for your records, however to confirm the overall scope, methodology and timescales remain the same as the previous version, there has just been minor additions to the historic background and archiving sections.

Once fieldwork commences, I will send further update.

Kind Regards

Lewis
