Dear Marie,

25/80123/COND – Godmanchester Rovers, Football Ground, Bearscroft Lane

Thank you for your consultation in regards to the discharge of the archaeological condition applied to 24/01471/FUL.

We are in receipt of an approved report for the scheme which details findings of limited archaeological significance, likely linked to modern disturbance which has led to deep layers of made ground being deposited across the development area. No further mitigation works are required, and we are currently working with the applicants archaeological contractor over the remaining archive requirements.

As such we can advise that the archaeological condition can be discharged in full.

As a note the archaeological evaluation report attached to the application is an earlier unapproved version, I have attached the most up to date, approved version to this email.

Kind Regards

Lewis
