This proposal is for a dog grooming summer house at the end of a residential garden adjoining other residential properties, so we have a concern about dog barking causing a nuisance to neighbours.
It is proposed that only two dogs will be attended to in an operational day, for 2-3 operational days per week (the operating days of which will be flexible between Monday and Saturday).
I find this arrangement acceptable, however, if you are minded to grant permission to this proposal, you may wish to condition that no dogs can be attended to on Sundays and bank holidays and only 2 dogs per day. This allows 12 dogs per (non bank holiday) week which is double what the applicant is requesting but does allow for some expansion over busier periods.
