Subject: 25/00940/FUL 6 Abbey Rooms Lane Ramsey - new dwelling

Good Morning Charlotte

I note the Highways Officer's comments on the above application. Since the previous application referred to was withdrawn in 2020, there has been a massive reduction in vehicular movements in and out of Abbey Rooms Lane.
Sergeants Solicitors has been converted to residential. The solicitors had a constant stream of vehicle movements every working day.
Ramsey Golf Course has closed its 40 space car park resulting in an enormous reduction in vehicle movements every day of the week.
My client uses the existing building for storage of building materials and visits once or twice every day.
The proposal is only likely to generate one vehicular movement per day.
Please will you present this new evidence to Highways and ask them to reconsider their stance.

Kind regards

David Hartley
