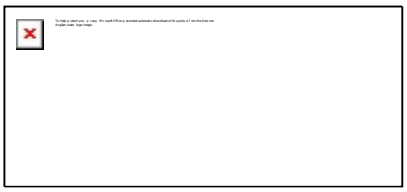
Subject: Discharge of Condition



Dear [redacted]

Land Adjacent To Thorns Farm Hamerton Road Alconbury Weston, 24/80404/COND, PLN-0219249

Thank you for your enquiry to discharge condition relating to the above development site. Please find our comments below.

Foul Water Comments: We have reviewed the submitted proposed plan and the applicant is proposing to discharge the foul flows from the development via Clearwater BloAir CW2 sewerage treatment plant, as such we are unable to make comments on the proposed foul drainage strategy. We recommend that the Local Planning Authority and the Applicant consults with the Environment Agency, they are the statutory consults for private sewerage systems. If the proposed drainage strategy is to change Anglian Water will need be re-consulted.

Surface Water Comments: The proposed surface water strategy is not related to Anglian Water owned assets therefore we are unable to make comments on the proposed surface water strategy for the development site. We would like to take this opportunity to advise that Anglian Water has no surface water public sewers in the area of the proposed development.

Should you have any queries or comments regarding this please contact us at planningliaison@anglianwater.co.uk or 07929 786 955 quoting reference PLN-0219249.

Kind Regards

Development Services Pre-Development Team
