# SUGGESTED SCHEDULE OF WORKS FOR PROTECTED TREES L/TPO/193 T40 - T70

- REMOVE ANY DEAD BRANCHES THAT POSE A RISK DUE TO FALLING FROM TREE.
- ONLY REMOVING DEAD-WOOD THAT POSES A RISK FOR HEALTH + SAFETY PURPOSES.
- ALL WORKS TO BE COMPLETED BY AN APPROPRIATELY TRAINED + CERTIFIED ARBORIALIST (VERY LIKELY TO BE D.H. TREE SERVICES WHO LIVES ON-SITE AT 18 MOSQUITO RD, OAKWOOD)
- ALL WORKS TO BE MINIMALLY INVASIVE TO THE TREES AFFECTED SO AS TO NOT DAMAGE THE TREES.
- NO TREES TO BE FELLED.

## REASON FOR THE WORKS:

AS NEW DIRECTORS OF THE ESTATE MANAGEMENT COMPANY, WE UNDERSTAND THAT THERE HAS BEEN VERY LITTLE (IF ANY) MAINTENANCE TO THE TREES ON SITE IN THE LAST 10 YEARS.

THIS HAS LEAD TO SOME POTENTIALLY DANGEROUS DEAD LIMBS/BRANCHES HANGING AT HEIGHT OVER AREAS WHERE CHILDREN PLAY + PEOPLE WALK DOGS ETC.

WE WOULD LIKE TO DO ONLY THE WORK NECESSARY TO CUT DEAD WOOD BACK + PRESERVE THE HEALTH OF THE TREES WHILST IMPROVING SAFETY.
