Our Ref: 25/00504/OHL

May 2025

Dear Mr Whymark,

Non-application of Section 37 Electricity Act 1989 Overhead Line (Exemption) (England & Wales) Regulations 2009

Proposal: Installation of one terminal pole and stay wire
Site address: The Old Stables, Hall Lane Tilbrook PE28 0JU

I refer to your application above received on the 18th March 2025.

The following documents have been considered:

- UK Power Networks Letter received by the Local Planning Authority on 18th March 2025.
- Design Drawings Ref: 8110192741 received by the Local Planning Authority on 18th March 2025.

I have set out below the Council's formal decision on the details submitted pursuant to the application. Officers have assessed the submitted documentation and considered the proposal in terms of its impact on any visual amenity and environment. Given the siting, design and form of the proposal and lack of any constraints, Officers do not consider that the works will have a detrimental impact on the surrounding area.

It should be noted that this assessment has not been undertaken against the legislation contained within the Overhead Line (exemption) Regulations 2009 and is solely on the potential impact on the surroundings and environment. The onus is on the applicant to ensure that the works comply with the relevant legislation.

Huntingdonshire District Council have no objections to make in regard to the development described as "Installation of one terminal pole and stay wire" and have no desire to be heard by the Secretary of State should it become necessary to apply for their consent.

I trust that this information is of assistance to you. Should you wish to discuss this matter further then please contact Olivia Manton.

Yours sincerely

Clara Kerr
