Heritage statement 5 Milton Avenue Eaton Ford St Neots ref 24/02141/HHFUL

The proposal is for a small front extension to run inline with a porch set back by about 1500mm from the established building line, the materials and design are in keeping with all aspects of the front elevation at ground floor level.

The larger extension will again match existing materials and is also situated at the rear. It id for these reasons we believe that he proposal will be of no detriment to the conservation area.
