7. Identification of tree(s) and descriptions of works

Ash tree. TPO 010/93
Sketch plan B Tree marked (1)

Wish to reduce the tree by approximately 2 .5metres to previous pollard point. To keep the tree and maintain it to a reasonable height and shading.

The TPO was placed on the tree prior to house extensions at numbers 14 and 16 Townsend Way.

If the tree is not pruned it could over time endanger the above properties, especially as the predominant SW winds put the properties in line with the tree should branches or tree come down.
