Materials and appearance

please see the below link for the fencing to be installed showing heights and sizes and materials. In addition will have a 150mm kick board below. The fence will not exceed 2m at any point.n

https://www.forestgarden.co.uk/product/6ft-overlap-fence-panel-w1-83m-h1-83m/

This is a similar or the same as several other properties in the village with boundary fences near the road and will keep in line with the appearance of the village and will not be overly prominent. I have included some photos of other properties in the village to show comparison. The first photo is 3 doors down from this property and is the opposite end to this row of houses. This is designed to closely follow how theres appears to make it appear uniform with its surroundings.
