building on side of existing unit - dimensions 13m long by 6m deep but with other end being 4m width with 3.5m indent and then 2m out to match the 6m width other end - the proposed building will be 5m in height where it meets the existing building down to 4m - the nearest side to the road is 6.2m from the curtilage at the back and over 8m at the front - so the 5m part is approx 14m at front and 12m at back - proposed steel construction and within permitted development as an extension to existing building - keeping a walkway at the back to keep fire exits clear and accessable
