Thank you for consulting us on the above. We have concerns regarding the potential impact of noise from any external music/events. We would therefore recommend a condition to prohibit external amplified music. If the applicants wish to have external music they will need to provide more information, including a Noise Impact Assessment in order to demonstrate the potential impact and how this can be made acceptable.

If you have any queries or wish to discuss this matter further please don't hesitate to contact me.

Kind regards,
