Huntingdon District Council

St Mary's Street

Huntingdon PE29 3TN

Dear Sir/Madam,

TREE WORK IN HILTON

My name is Ian Stott and I work alongside the Parish Council (P.C.) in Hilton as their Tree Office. My address is given above and I can also be contacted via email [redacted] or 'phone [redacted] or mobile [redacted] I respond directly to the clerk to the P.C. who is [redacted] His address is [redacted] and his contact details are clerk@hiltonparishcouncil.com with a [redacted]

I have recently had three tree companies round to look at the P.C. owned trees within the village. All three identified that there is need to remove 2 large dead branches from an Oak at the entrance to the car park for the Village Hall as well as up to 4 other pieces of deadwood within the crown. This entrance is used by both vehicles and pedestrians and has considerable use on a daily basis. The entrance is only about 4 metres from the base of the tree. We have had to remove several limbs from this tree in the past and we feel it is important to do the same now primarily because of public safety concerns.

The tree in question is shown on the accompanying photographs, the accompanying map and is identified in the accompanying arboriculturist's quotation.

If I can be of any further assistance, please let me know.

With kind regards

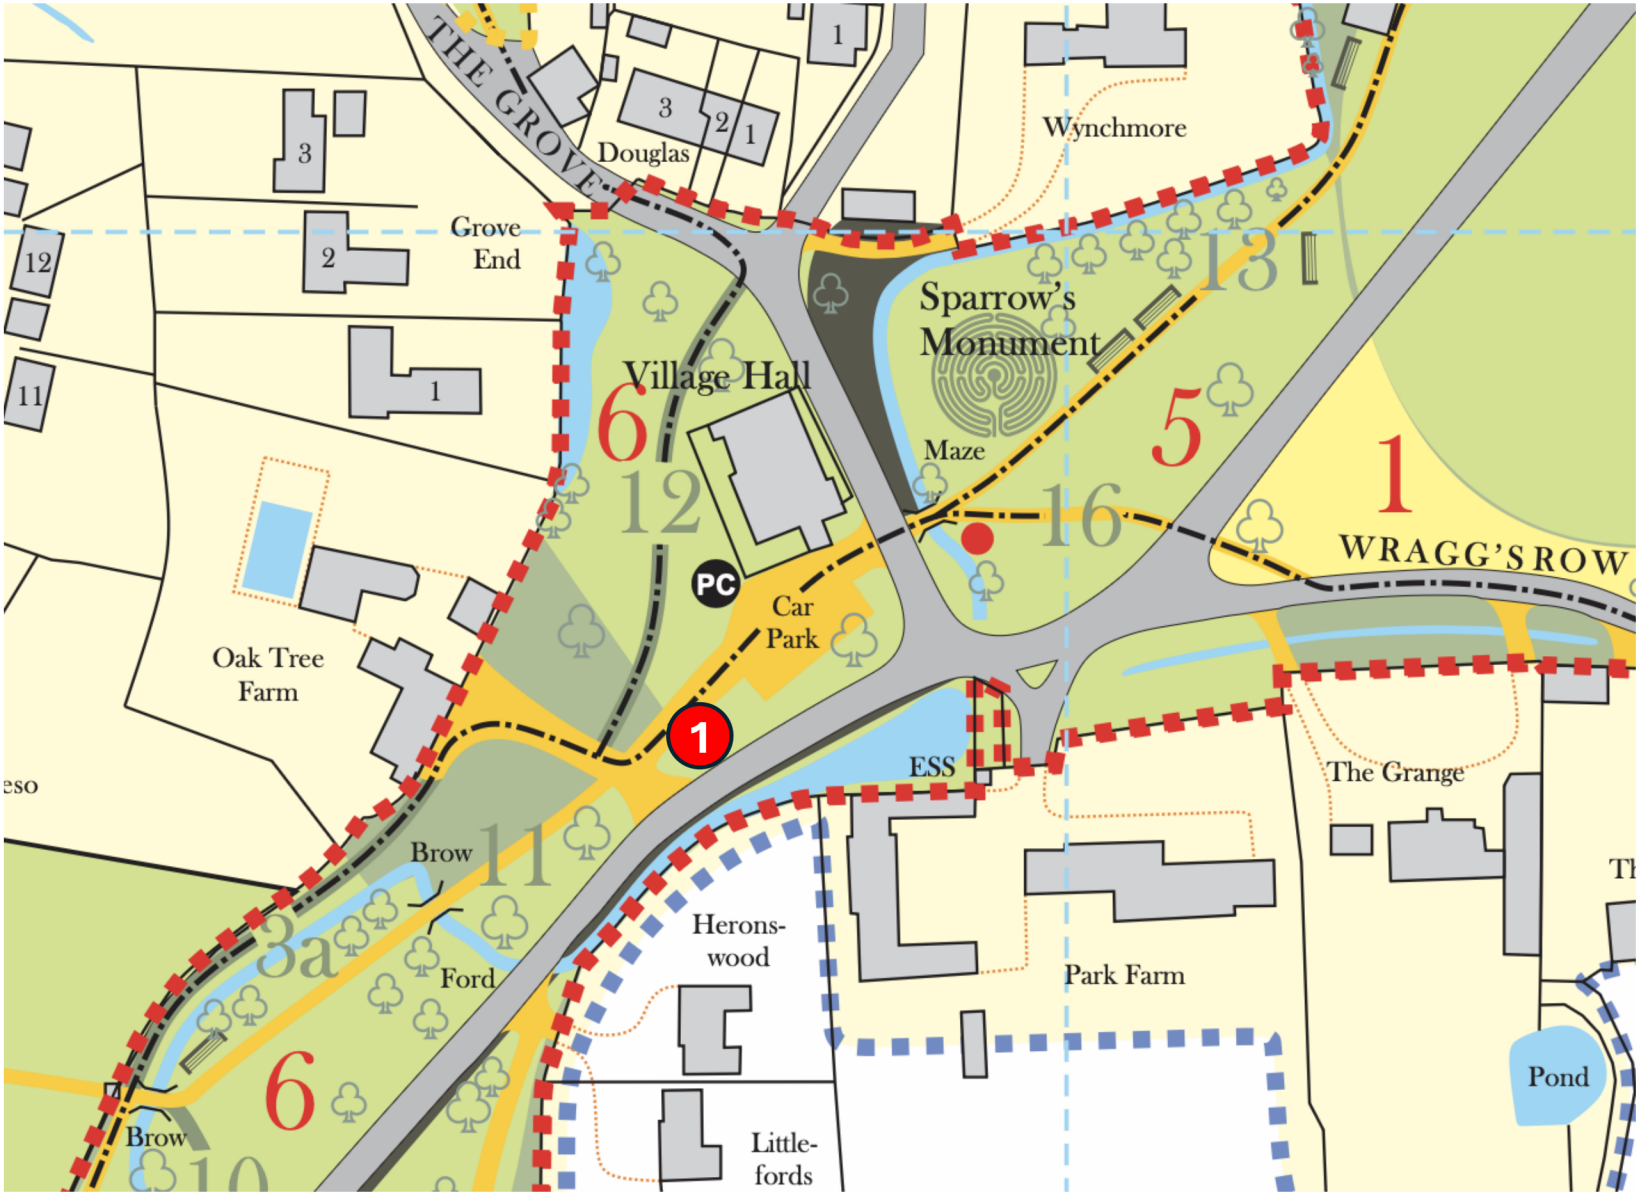

Ian Stott

Upper limb to be removed to approx. 4 metres of main trunk. Lower limb to be removed to the main trunk.

The photograph to the left appears to show live foliage on the lower limb whereas it is actually on the limb behind. This photograph is an attempt to show this lower limb has no live foliage on it.

1 Location of the Oak requiring work. The 'What Three Words' location is 'deciding.lightness.rattler'

GLENN CONWAY TREE SPECIALISTS

Elmfield, Chewells Lane, Haddenham, Ely, Cambridgeshire CB6 3SS

All aspects of tree & hedge care - planting, surgery, felling, stump grinding

[redacted] (Clerk to the Parish) 29/08/2026

QUOTATION.

Dear [redacted]

Having inspected the trees within the Parish with Mr. I. Stott - the following are my specifications and prices to undertake the work.

(1) The Major Oak - Village Hall carpark

i) Dead limb (Church side) at 45° - remove back to 4m from the trunk.

ii) Lower large limb at 30% - remove (dead).

iii) 3-4 larger pieces of deadwood, higher in the crown. Remove.
