Comments Details

Commenter Type:	Member of the Public
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	Its good to see more businesses being created in our village especially in the village centre, which again will help other businesses thrive in the village and people may say that parking may be an issue but I would have thought there would be less parking needed for this business than the current one due to them having less customers because of the change in use. Also I very much doubt it would adversely affect our view or devalue our property value.

Kind regards
