Green Acre Houghton Hill PE28 2BS. CA (8317 Bedford)

Identification of Trees and proposed work:

The garden has been untended for many years. Brambles, ivy and undergrowth have been cleared and there are a number of small self-set trees, overgrown hedging and older trees in poor condition that now require removal.
See photos below

G1 approx 10 self-set Ash (approx. 200mm DBH):
Fell and grind out stumps

G1 self-set Ash & Cherry Plum (approx. 200mm DBH):
Fell and grind out stumps

T1 Lawson's Cypress:
Fell due to proximity to house (approx. 2 metres)

T2 Alder: central stem largely dead – fell and grind out stump

G3 4 x Hawthorn: ivy-covered trees in poor condition – fell and grind out stumps

G4 Leylandii: reduce height by 5m to approx. 7m

G5 10 x Leylandii: fell and grind out stumps

T3 self-set Sycamore (approx. 250mm DBH)
Tree has very poor form – fell and grind out stump
