Lin, if these are useful I will print but.... I would rather not!

Jackie

For attention of LINDA WALKER

Dear Linda,

I understand that you have responsibility for the subject planning application and that the Planning Department is operating under a heavy workload. I therefore submit this and a follow up email as additional photographic evidence to support my Design and Access statement. From our point of view,

in this planning application, we are seeking amendments to cover the problems we have faced during the renovation. Any other works have been completed according to 2009 planning consent.

These photographs show;

- the additional rooflights internally and externally
- the kitchen floor footing level and 1st floor master bedroom door opening
- the delapidated brick chimney and the stone replacement
- the replacement sitting room window
- the stone study walling, retained hip roof, replacement window and preserved well
- repositioned family bathroom,
- door opening between new kitchen and sitting room
- cloaks/boot/boiler room
- the raised ridge line of the new kitchen extension

I trust that this will be of some use. If you require further information please let me know. The site is not always open and it would be advisable to check in advance of any visit.
I shall send a second email with photographs of the landscaping.

Yours Sincerely,

Peter Moules
