Landscape Consultation 24.80412.COND.docx

[redacted]

Re-consultation attached.

Everything looks good now. However, only one thing, a typo suggesting rather large hedgerow trees to be planted at 400 – 600 cm! Please amend to 40 – 60cm:

H1 Mixed Native Hedge (double staggered row)

Name	Girth/Dia.m²	Height cm	Root zone	Specification	m Ctrs	No/m²	Area l/m	Number
Crataegus monogyna		400-600	B	Bare root planting	0.25	1	29	
Corylus avellana		400-600	B	Bare root planting	0.25	1		
Cornus sanguinea		400-600	B	Bare root planting	0.25	1		
Prunus spinosa		400-600	B	Bare root planting	0.25	1		
Viburnum opulus		400-600	B	Bare root planting	0.25	1		
Rosa canina		400-600	B	Bare root planting	0.25	1		

Many thanks,

Huntingdonshire DISTRICT COUNCIL
