RE: ***Application description***

Proposal: Erection of detached double garage, new entrance gates and a widened vehicular entrance with alterations to the existing boundary wall
Location: Kings Orchard High Street Hemingford Abbots Huntingdon PE28 9AH

Following a review of the documents provided to the Local Highway Authority (LHA) as part of the above planning application it was noted that it is intended to widen the existing entrance from 3.5m to 4.6m, remove the existing gates, and erect a new electric gate approx. 7.4m within the dwelling's curtilage.

The widened entrance and the set back of the new gate will result in an improvement for highway safety.

Also, as noted within the Design, Access and Heritage Statement, the existing dropped kerb is of an adequate width to serve the widened entrance so no highway works are required.

Therefore, the LHA raises no objection to the proposal should it gain the benefit of Planning Permission.
