Hi

I would like to raise an objection to the planned application at Syl Mal High Street colne. Reasons include highway issues during potential build opposite my home with limited onstreet parking and local bus and vehicle traffic. Other issues include noise and disturbance from use. Our daughter works from home for cambridgeshire County council dealing with the public in sensitive cases which would be compromised with works. Due to age of property is there likely to be asbestos issues that need appropriate works? Other issues include pulling off our drive with restricted views which may be dangerous during the construction period.

Regards
