Dear Lucy,

24/80386/COND I Priory Centre, Priory Lane, St Neots

Thank you for your consultation in regards to the amendments made to the above referenced planning application.

To confirm the 'amended archaeology report' now attached to the portal represents the approved version of the Written Scheme of Investigation for the evaluation phase of the project.

Except for the above my comments remain the same as previously advised. Namely that as the fieldwork is yet to be undertaken, we advise that the condition is not discharged and is retained until further work is complete. As per section 1 of the approved WSI:

This document represents a Written Scheme of Investigation (WSI) for the archaeological evaluation only. This document alone will not result in the discharge of any archaeological condition.

Please note that due to the constrained nature of the site, the archaeological evaluation will need to be undertaken post demolition **to slab or floor level only.** In order to ensure this can be undertaken within the bounds of the current condition wording, the timetabling for this has been set out in the WSI in section 6.2.

Kind Regards

Lewis
