Town & Country Planning (Development Management Procedure) (England) Order 2015

Application Reference: 24/01993/FUL
Site: King George V Playing Fields (St Peters Road), Huntindgon, PE29 7DA
Proposal: Demolition of existing cricket pavilion for replacement cricket pavilion and storage unit.
Sport England Reference: PA/24/E/HU/69259

Thank you for consulting Sport England on the above application.

Summary

Statutory consultee role
Sport England raises **no objection** to this application as it is considered to meet exception 2 of our Playing Fields Policy and to accord with Paragraph 104 of the National Planning Policy Framework (NPPF).

Sport England – Statutory consultee role and policy

We understand that you have consulted us as a statutory consultee in line with the above Order. Therefore, we have considered the application in light of the National Planning Policy Framework (NPPF), in particular paragraph 104, and Sport England's Playing Fields Policy, which is presented within our 'Playing Fields Policy and Guidance Document': www.sportengland.org/playingfieldspolicy

Sport England's policy is to oppose the granting of planning permission for any development which would lead to the loss of, or prejudice the use of all or any part of a playing field, or land which has been used as a playing field land remains undeveloped, or land allocated for use as a playing field unless, in the judgement of Sport England the development as a whole meets with one or more of five

specific exceptions. A summary of the exceptions is provided in the annex to this response.

The Proposal and its Impact on the playing field

Planning permission is sought for the demolition of the existing cricket pavilion to facilitate the construction of a new cricket pavilion and storage unit. A revised layout plan has been submitted. The pavilion has been moved marginally towards the east and new native planting is proposed along the western boundary. Consequently, the proposal is for ancillary facilities which seek to support the principal use of the site as a playing field. Therefore, it will be assessed in accordance with Exception 2 of Sport England's Playing Fields Policy.

Assessment against Sport England's Playing Fields Policy and NPPF

The proposal is for ancillary facilities supporting the principal use of the site as a playing field. The new pavilion and storage area will be positioned in a similar location to the existing pavilion, with the exception of the gravel path marginally extending beyond the existing pavilion. The gravel path would however align with the cricket nets and trees situated along the same boundary. The landscaping would be located on the western boundary adjacent the highway and set away from the playing field. The proposal would not affect the quantity or quality of playing pitches or otherwise adversely affect their use.

Sport England's Position

Given the above, Sport England raises **no objection** to the application because it is considered to accord with exception 2 of our Playing Fields Policy and paragraph 104 of the NPPF.

If you would like any further information or advice, please contact the undersigned

Yours sincerely,

Clare Howe

Annex

The Five Exceptions to Sport England's Playing Fields Policy

Exception 1
A robust and up-to-date assessment has demonstrated, to the satisfaction of Sport England, that there is an excess of playing field provision in the catchment, which will remain the case should the development be permitted, and the site has no special significance to the interests of sport.

Exception 2
The proposed development is for ancillary facilities supporting the principal use of the site as a playing field, and does not affect the quantity or quality of playing pitches or otherwise adversely affect their use.

Exception 3
The proposed development affects only land incapable of forming part of a playing pitch and does not:

- reduce the size of any playing pitch;
- result in the inability to use any playing pitch (including the maintenance of adequate safety margins and run-off areas);
- reduce the sporting capacity of the playing field to accommodate playing pitches or the capability to rotate or reposition playing pitches to maintain their quality;
- result in the loss of other sporting provision or ancillary facilities on the site; or
- prejudice the use of any remaining areas of playing field on the site.

Exception 4
The area of playing field to be lost as a result of the proposed development will be replaced, prior to the commencement of development, by a new area of playing field:

- of equivalent or better quality, and
- of equivalent or greater quantity, and
- in a suitable location, and
- subject to equivalent or better accessibility and management arrangements.

Exception 5
The proposed development is for an indoor or outdoor facility for sport, the provision of which would be of sufficient benefit to the development of sport as to outweigh the detriment caused by the loss, or prejudice to the use, of the area of playing field.
