OFFICIAL

Hi Benjamin

Planning Ref: 26/01895/HHFUL
Env Health Ref: 440574

Spillers Yard, Raunds Road, Keyston, Huntingdon PE28 0RH
Installation of 32 roof-mounted solar photovoltaic panels to the south- and east-facing roof slopes, installation of a ground-mounted air source heat pump, erection of associated timber screening and installation of solar panel battery energy storage equipment

I write with regard to potential noise from the proposed air source heat pump at the above property.

I have reviewed the sound calculations and associated documents. Providing the 12kW Samsung EHS Gen 7 R290 product code AE120CXYDEK/EU is used (rather than the 16kW model) in the location shown on the Block Plan and the proposed 1.86 metre high wood screen is constructed as shown on the Block Plan, we have no objection to this proposal.

Please do not hesitate to contact me should you have any queries regarding the above.

Best regards,
[redacted]
