109 High St Brampton PE28 4TQ CA (8340)

Identification of Trees and proposed work:

T1 Atlas Cedar:
sectional fell close to ground level

The owners recognise the prominence of the Cedar and propose to replace it with 1x Crataegus laevigata 'Crimson Cloud'

Reason:

- Tree is beginning to outgrow it's position and conflicts with several phone lines
- Several branches have been lost in recent years and the owners have safety concerns
- Pigeons roost in the tree and the resulting droppings damage cars and are brought into the house unless the driveway is regularly cleaned
