RE: ***Application description***

Proposal: Erection of a new car servicing and repair structure
Location: Tilson Autos Infield Road Glatton Huntingdon PE28 5RY

Following a review of the documents provided to the Highway Authority as part of the above planning application, it was noted that the Design and Access Statement notes that, although the new structure will increase the number of customers using the garage, this will be off-set by the number of vehicles being taken off-site to other facilities and then returned and that the visibility from the access is commensurate with the posted speed limit.

In addition, the existing and proposed structures are in the south east corner of the site and the access is of sufficient length so that vehicles will not be waiting on Infield Road to enter the site whist others are exiting.

Therefore, no significant adverse effect upon the Public Highway should result from this proposal should it gain benefit of Planning Permission.

Jo Challis
